

Monytize™

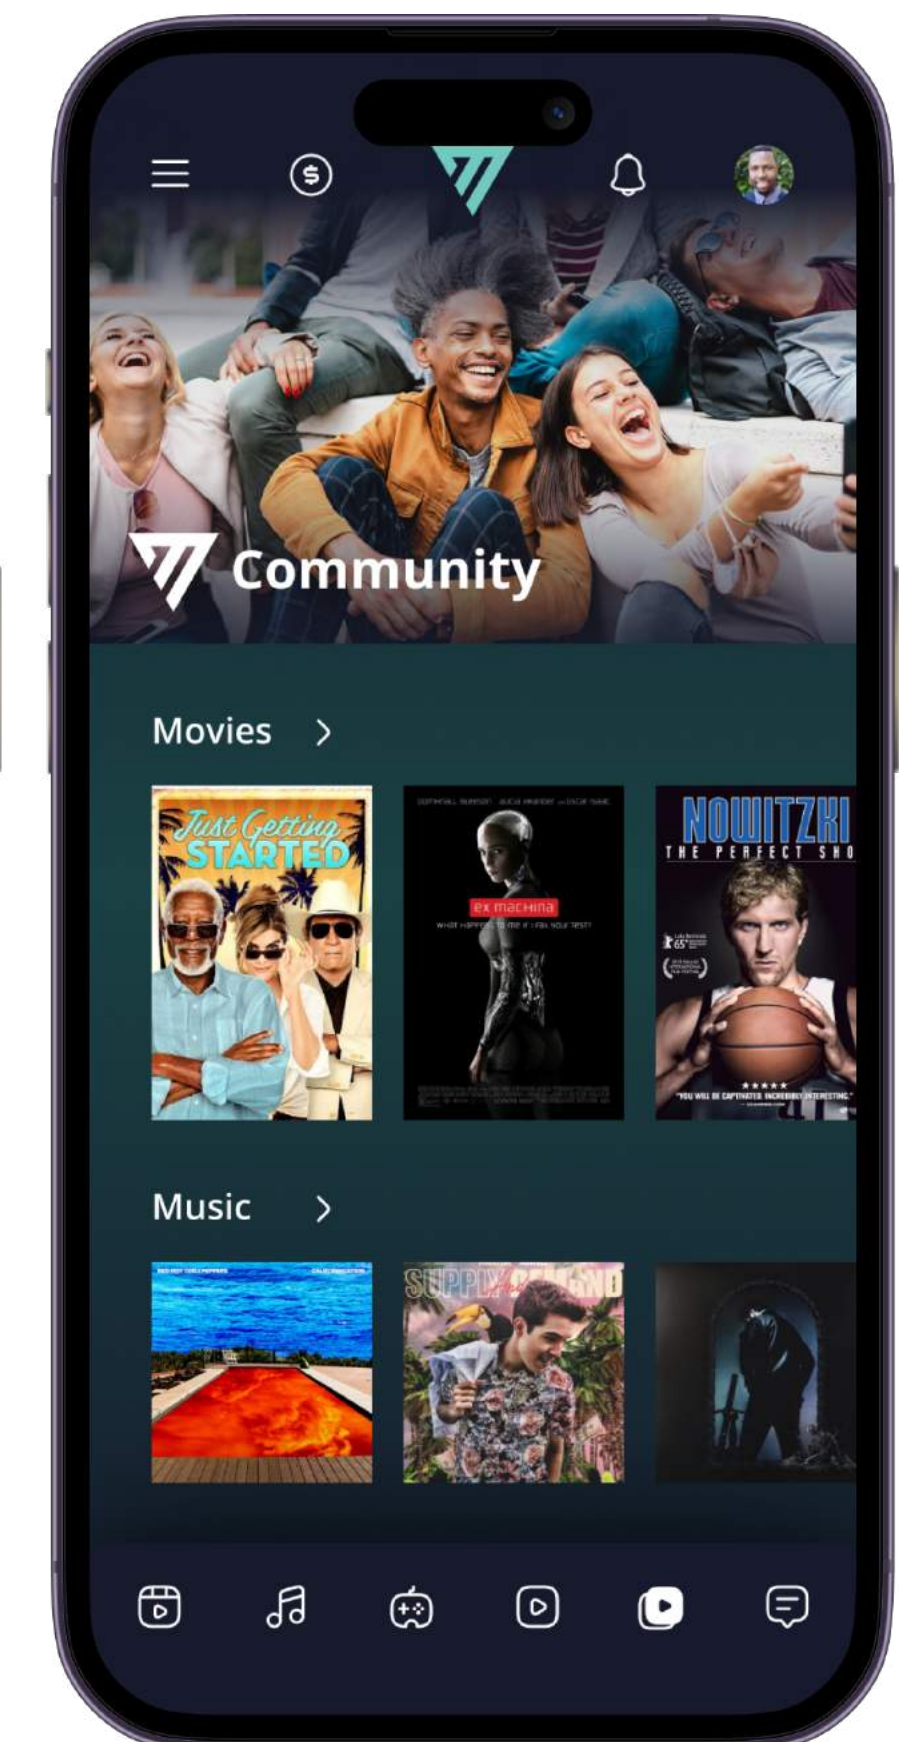

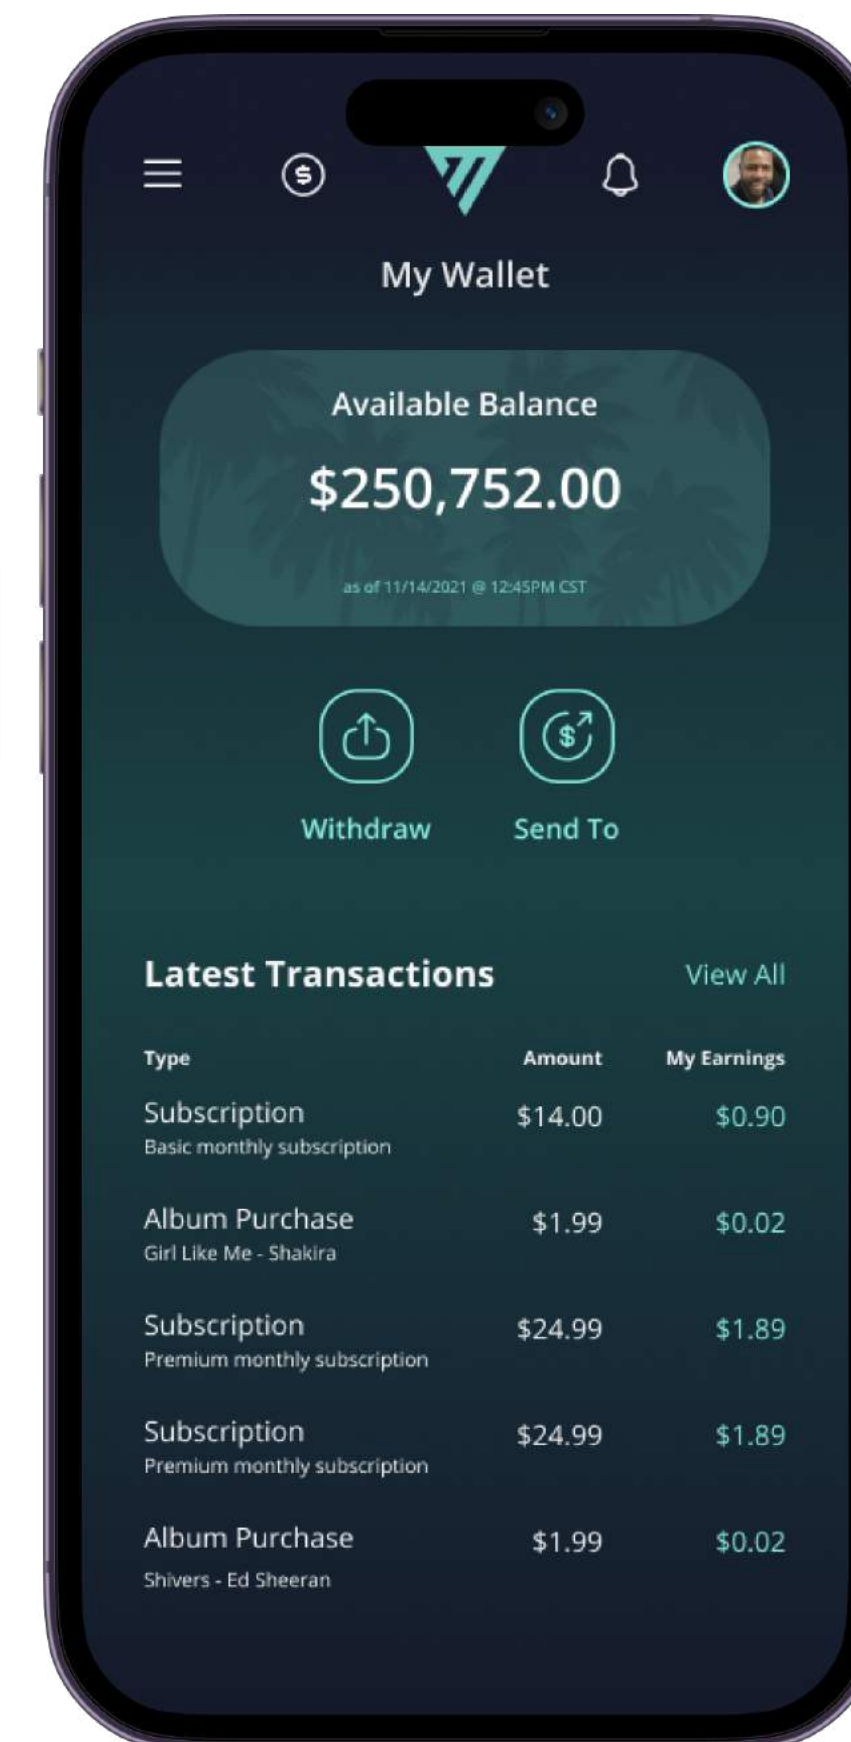

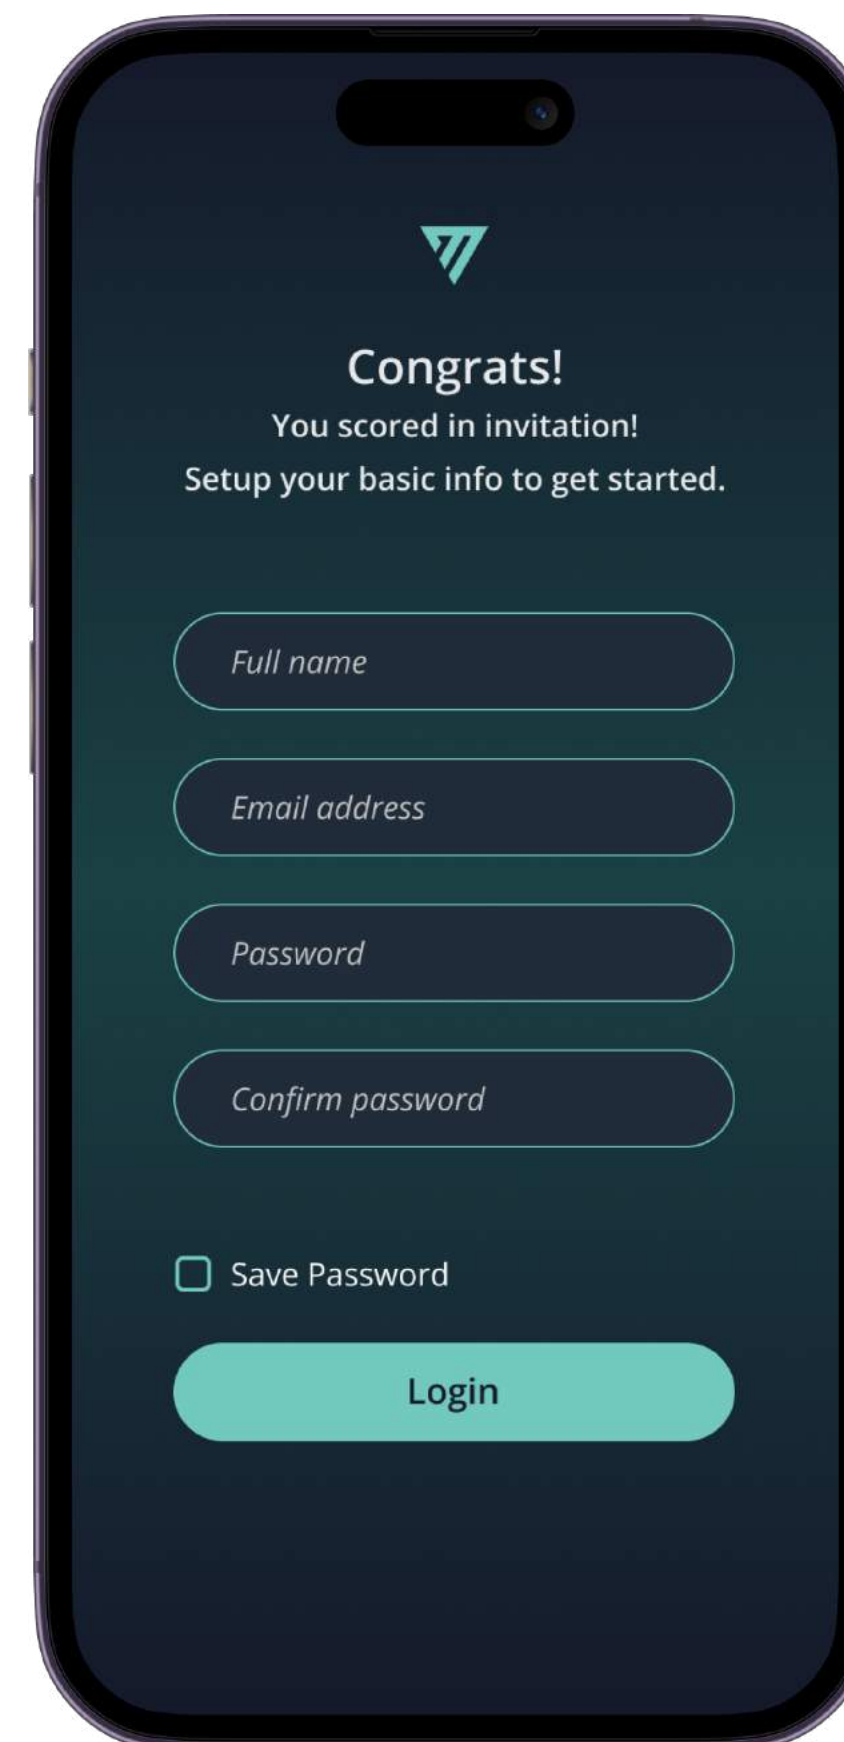

Product Overview

ABOUT MONYTIZE

Monytize is a free-to-join, invitation-only entertainment and social media platform.

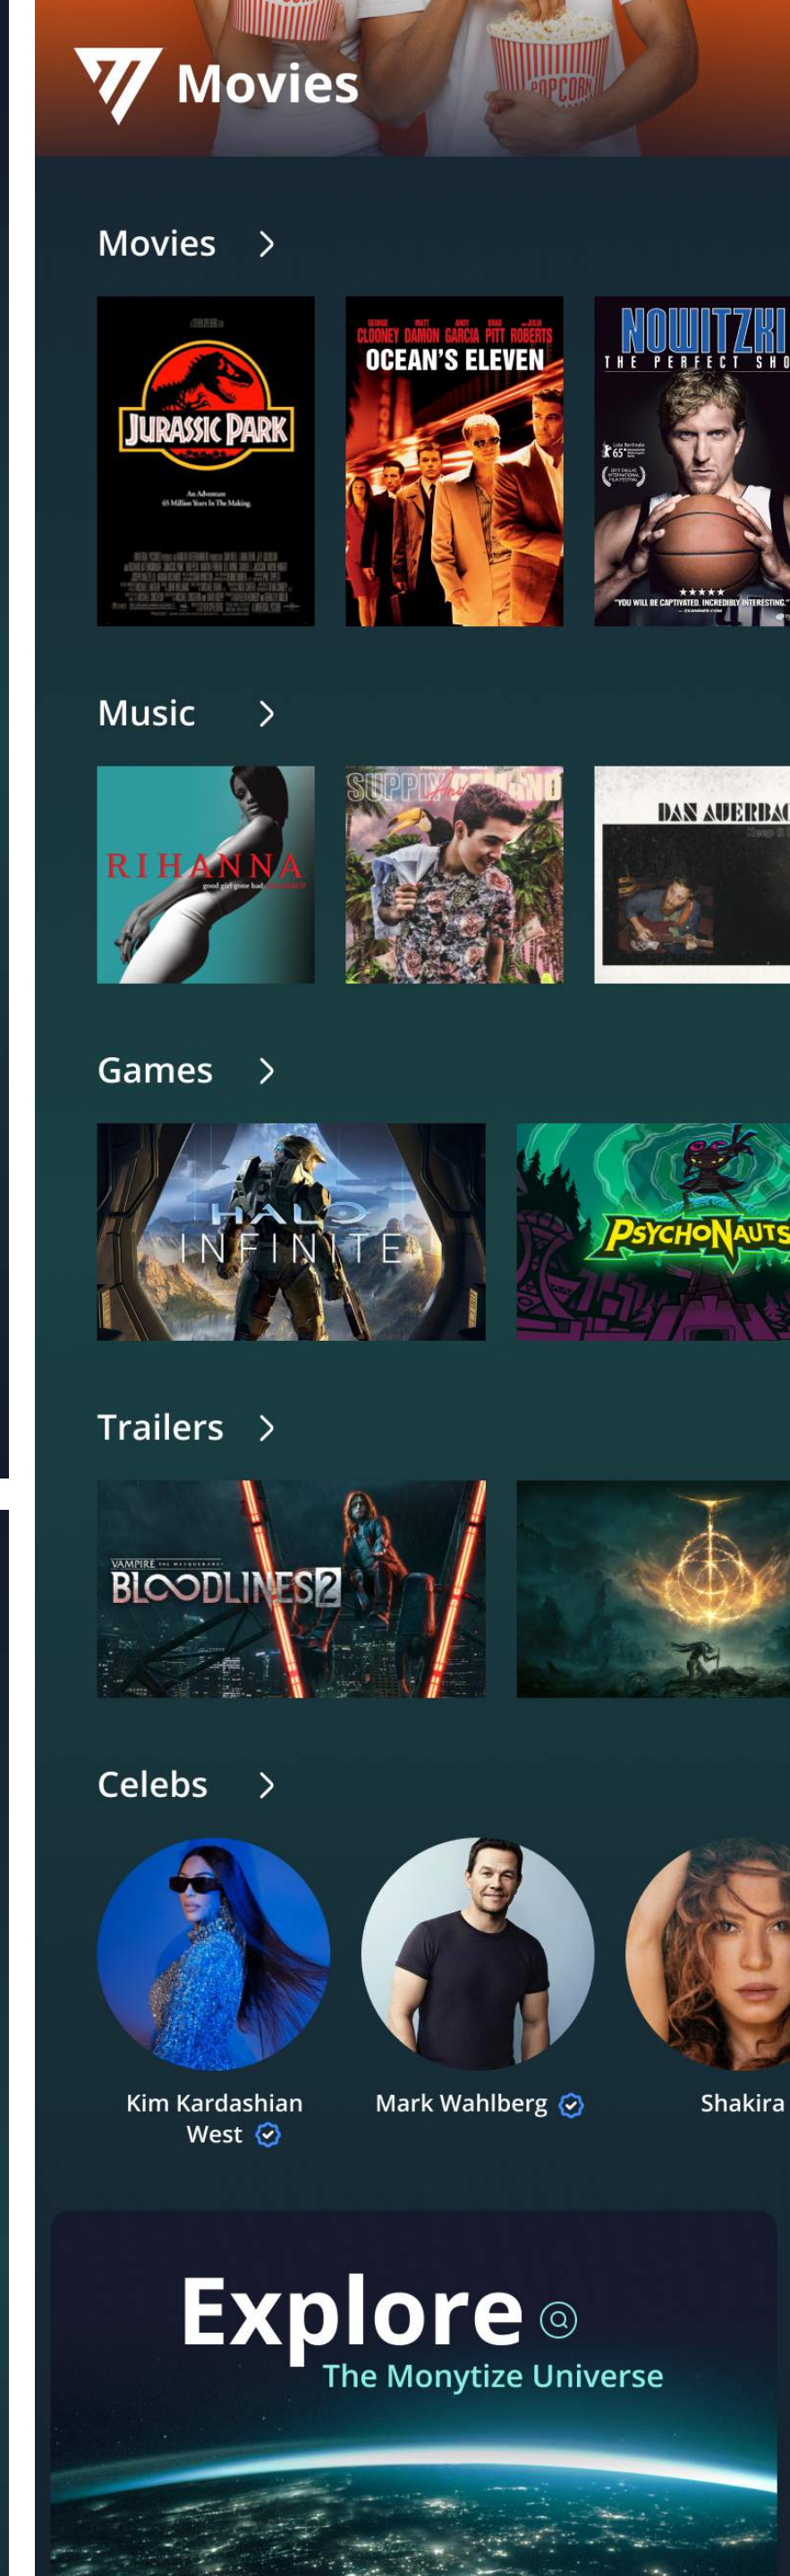

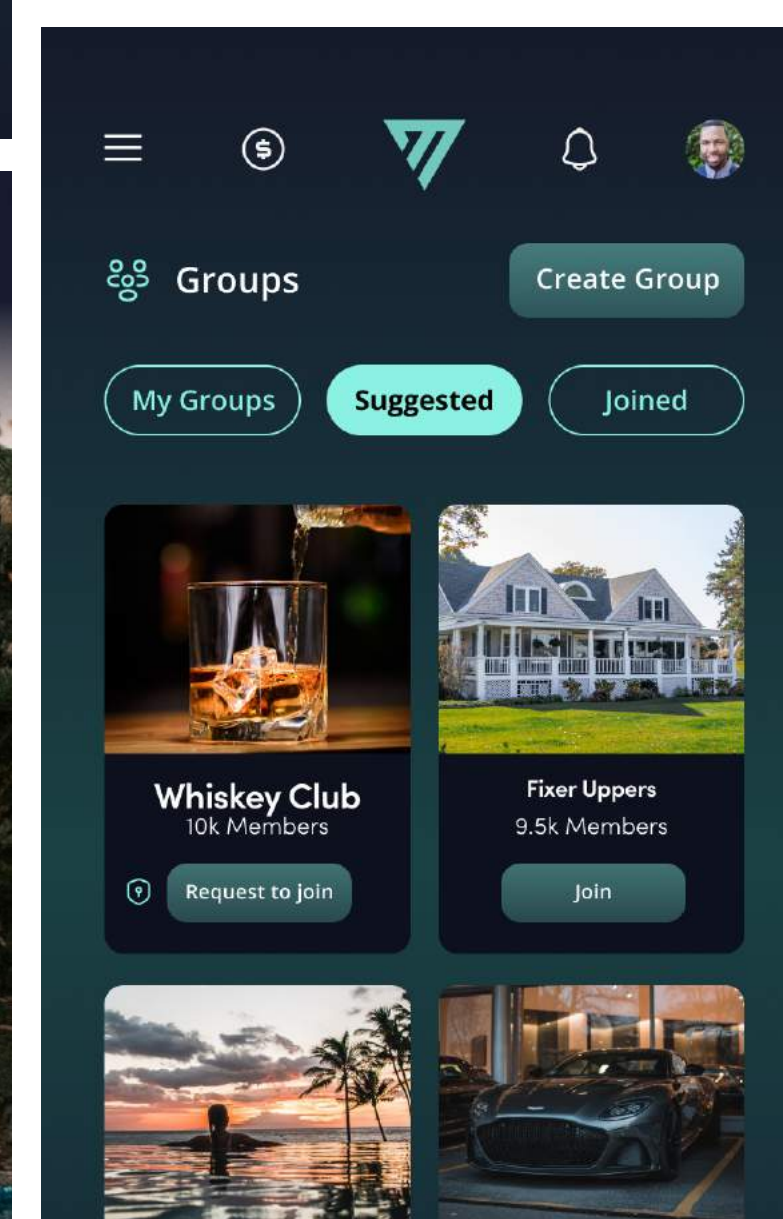

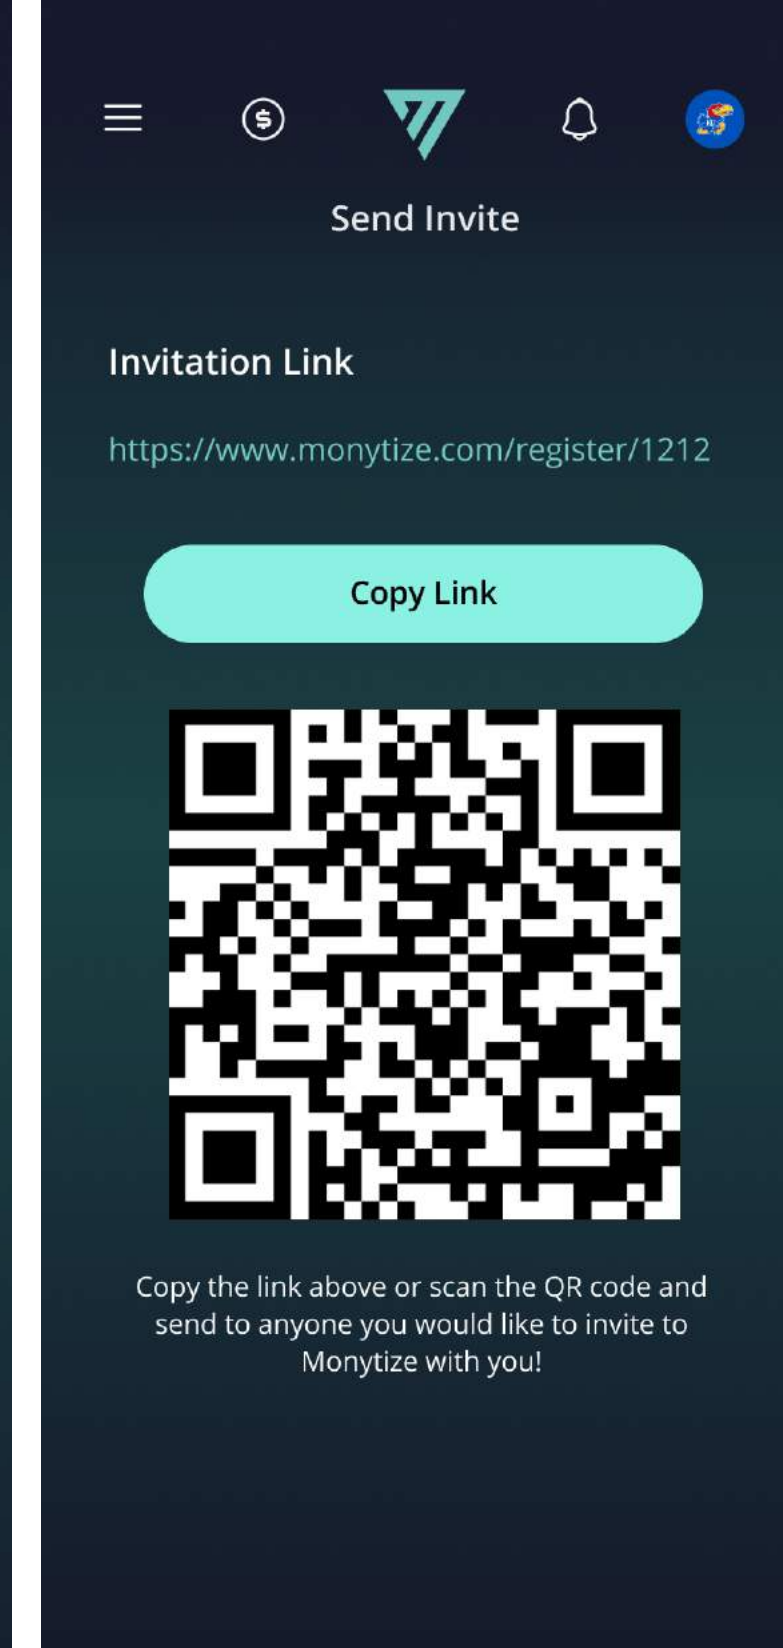

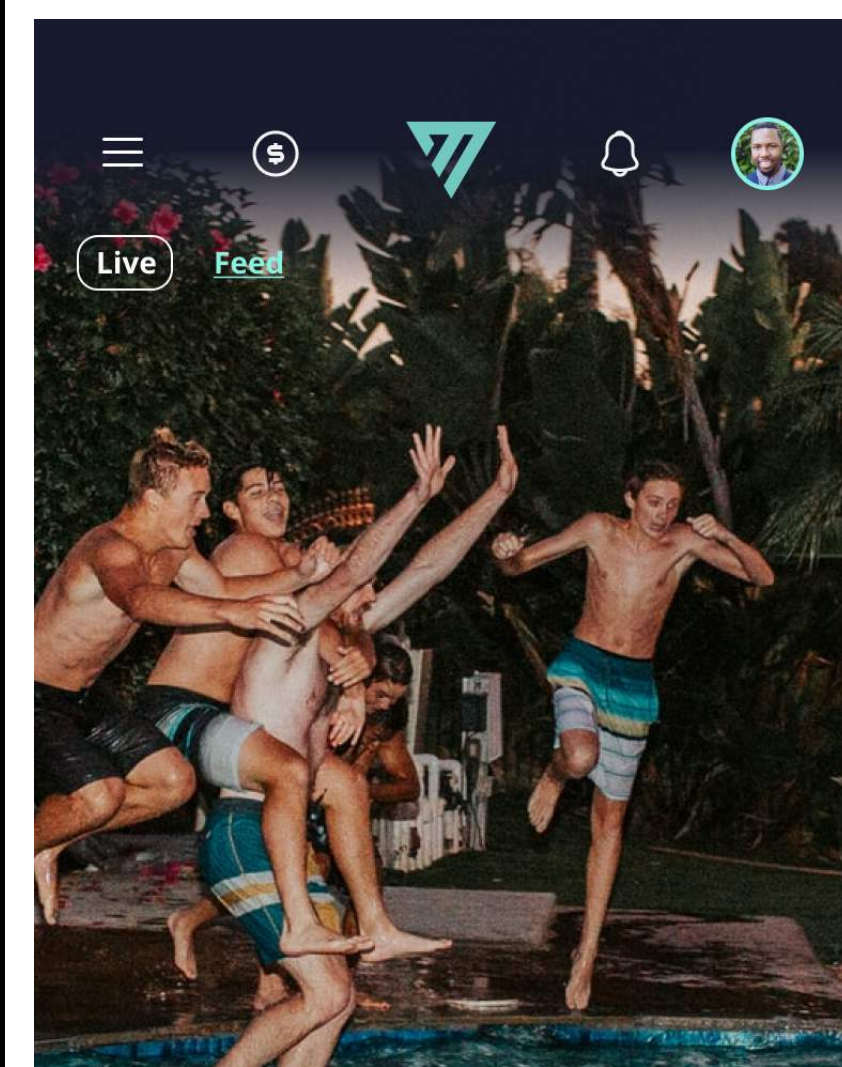

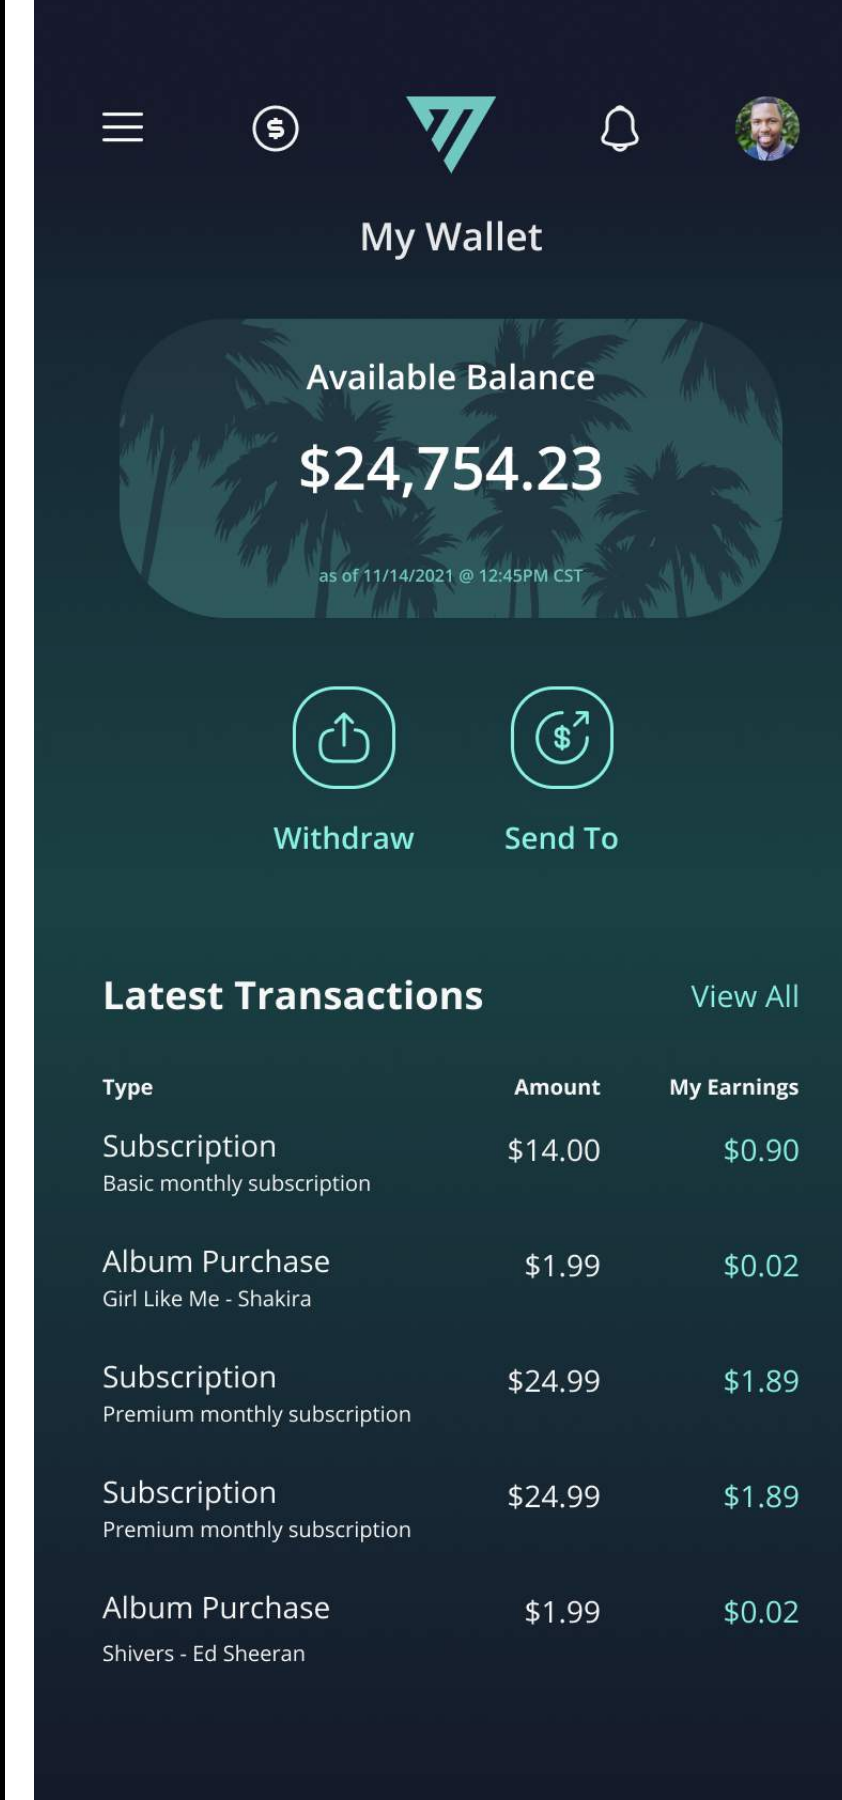

Monytize is unique in its ability to provide a single social media and entertainment platform that provides cash back to its members for doing what they do every day – listen to music, watch movies, play games and socialize.

No matter who you are and what you do, Monytize is the platform for you, to generate a whole new revenue stream to fund your business, projects, and an opportunity to give back to your community like never before.

OUR MISSION

Create a sustainable funding model for charities, schools, non-profits and other “make the world a better place” organizations through social commerce.

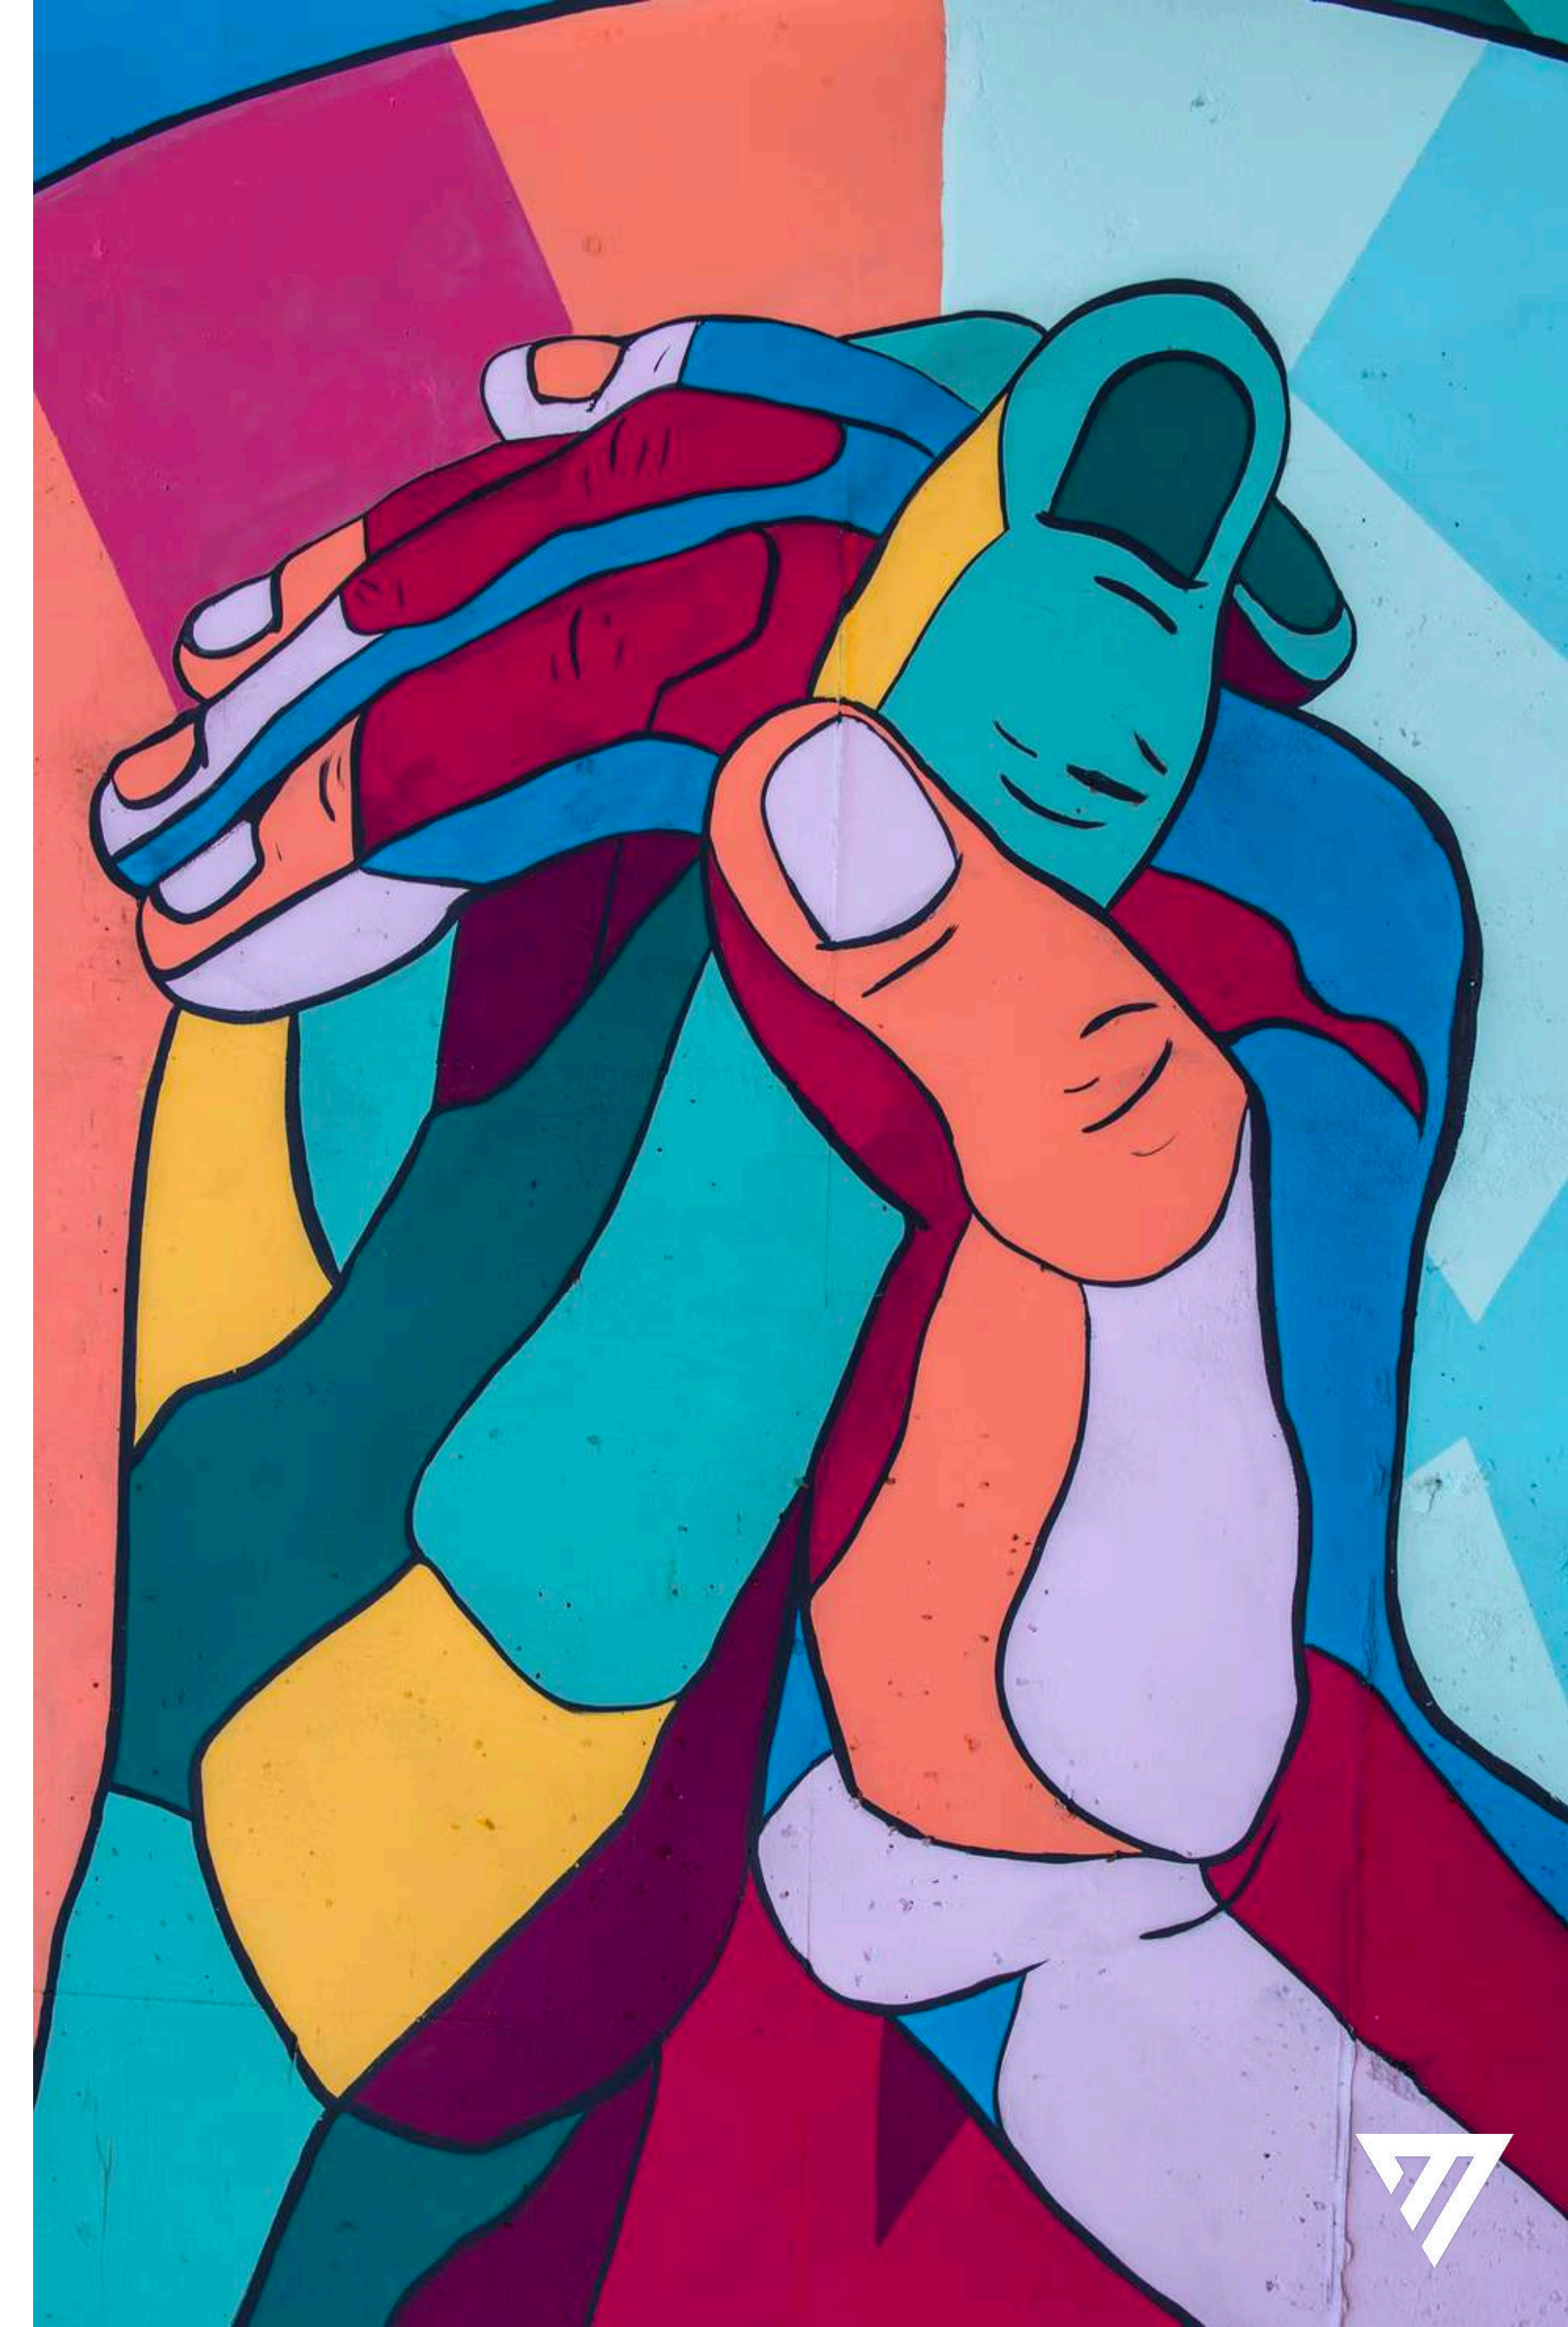

THE OVERVIEW

Consumers today are frustrated by the need for multiple service subscriptions to access the content they want, and they are equally annoyed at being forced to manage multiple subscriptions and keeping track of their favorite content.

The Monytize social commerce platform bridges celebrities, their fans and social responsibility, which creates a highly sustainable level of stickiness through everyday entertainment choices – conversing with friends, watching movies, listening to music, and playing video games – all from a single, highly secure platform.

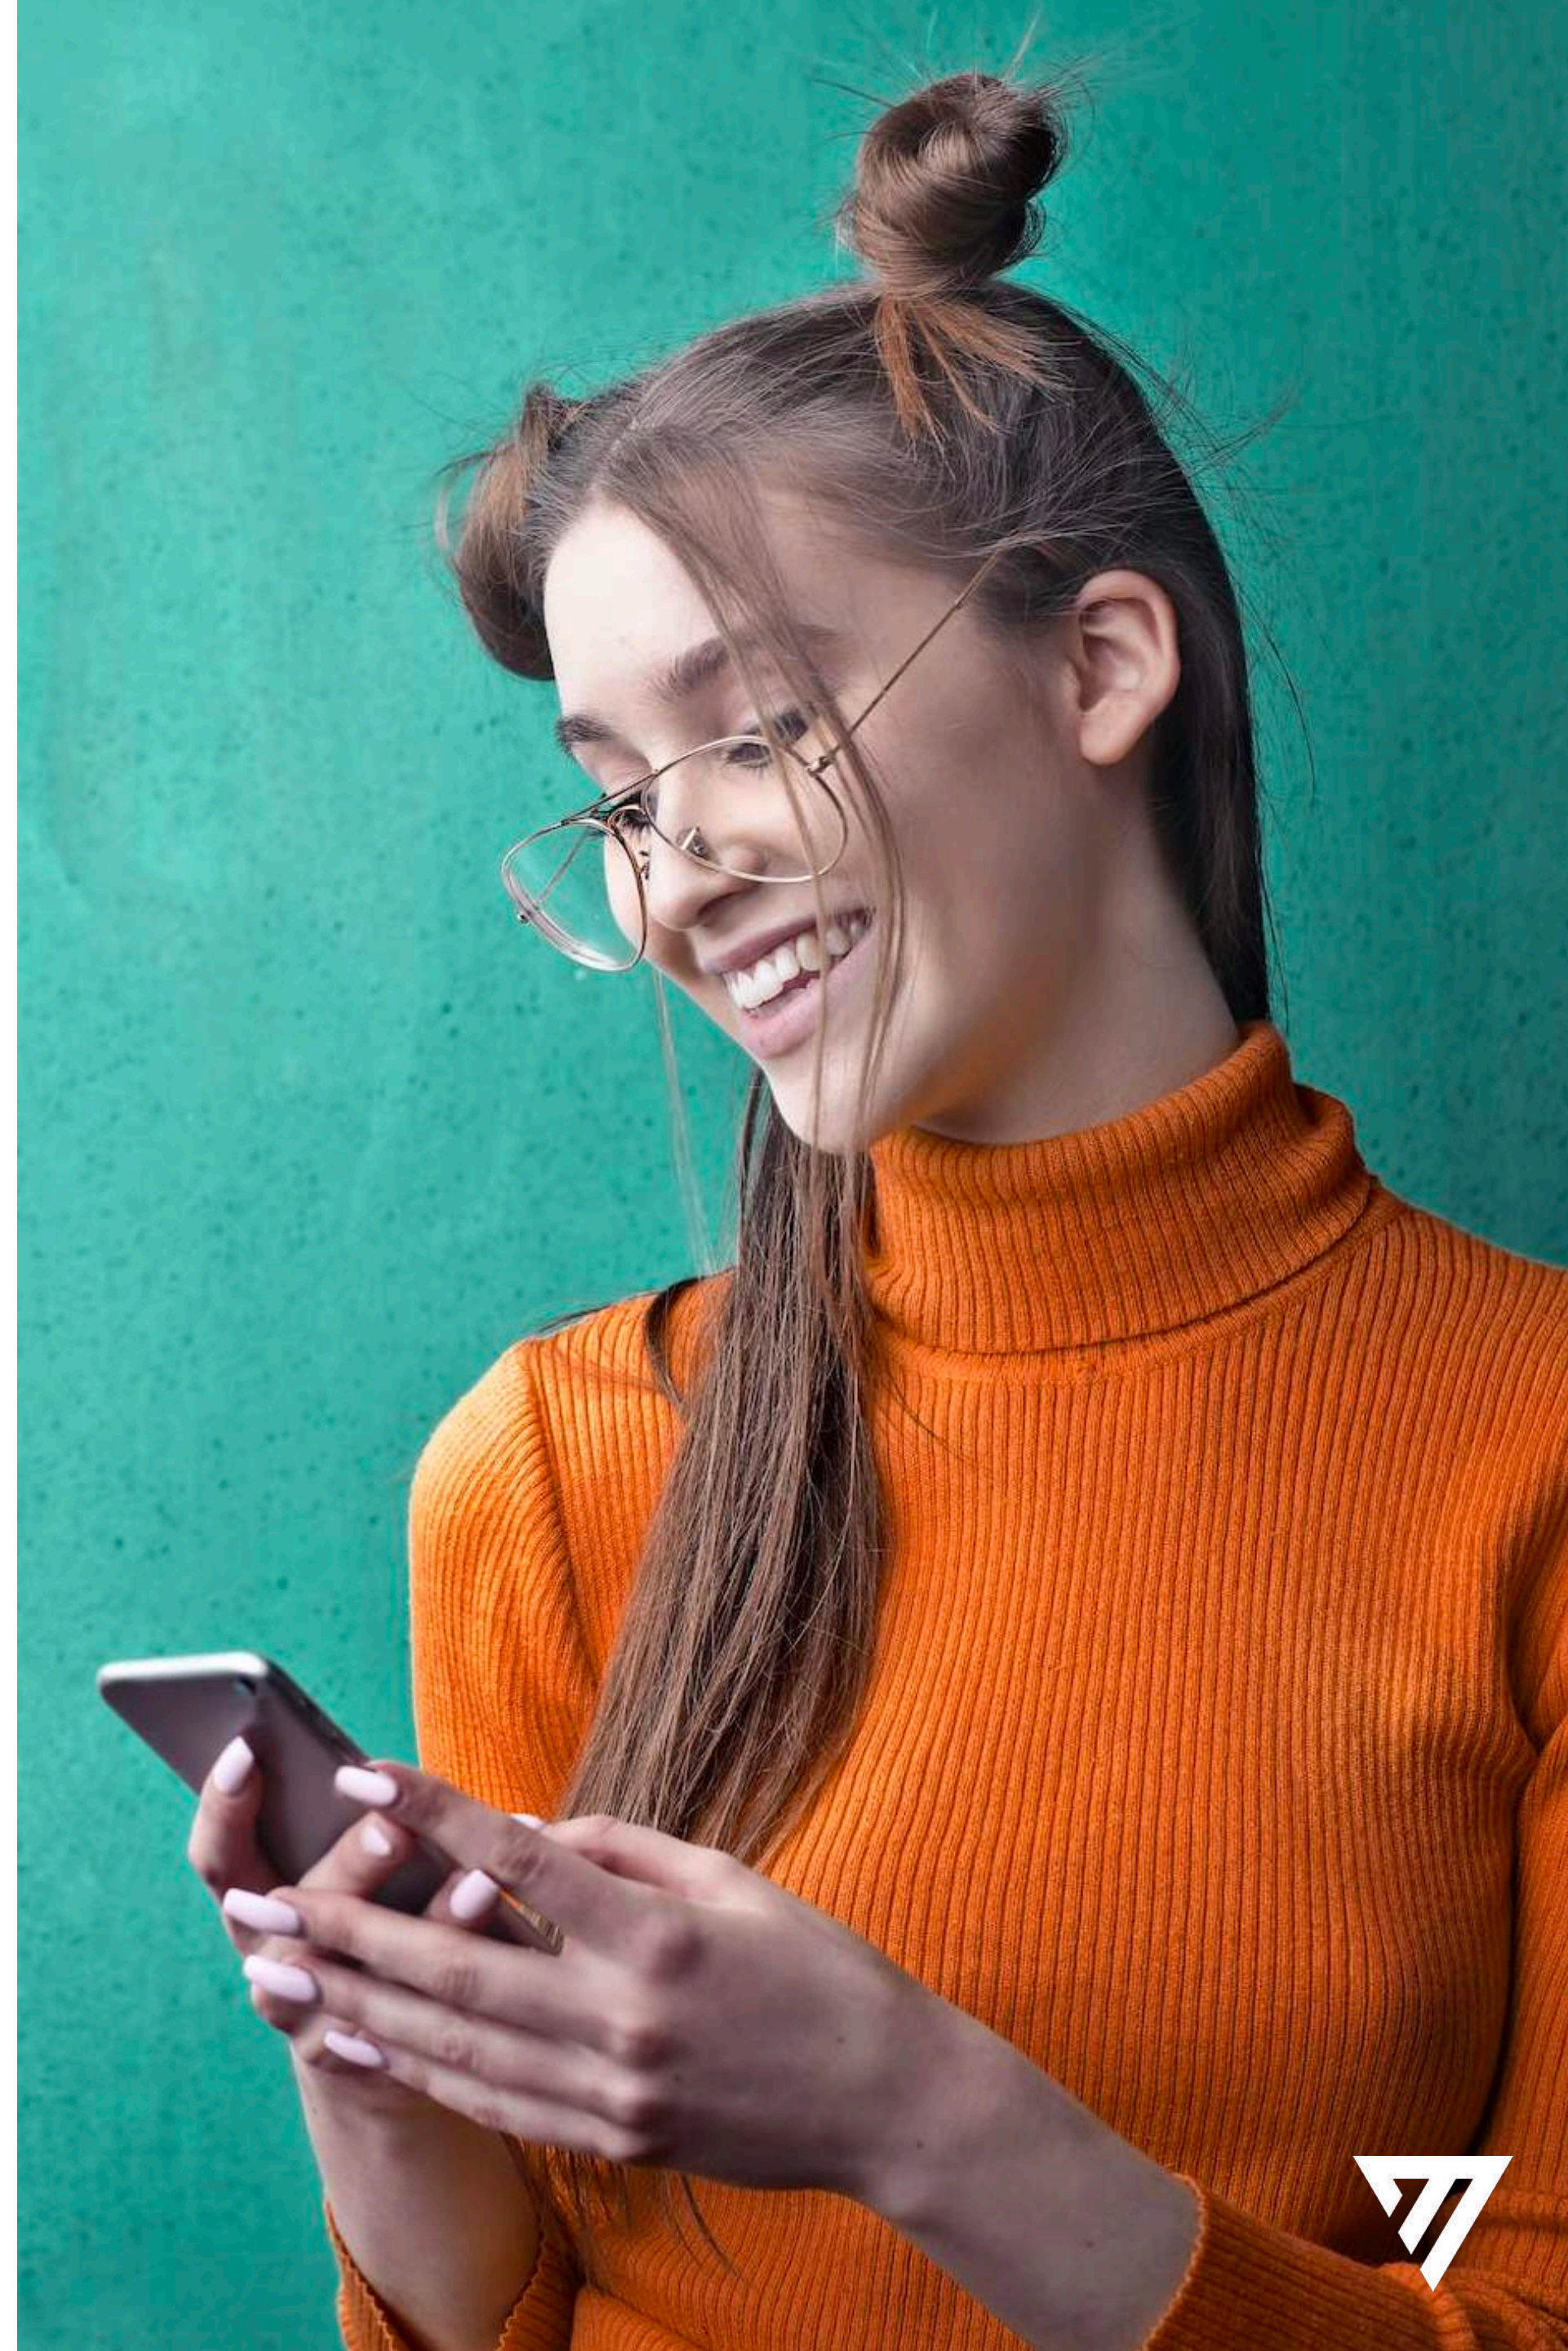

Monytize offers subscribers to its services cash back each month from subscriptions and the purchase of movies, music, and games, much like the Discover Card cash back program or Amazon’s affiliate program. This program covers not only purchases made each month by the individual subscriber, but the subscriber also receives cash back from any purchase made by anyone the subscriber invites to join the Monytize platform.

HOW MONYTIZE WORKS

Once an individual receives an invite, they simply register by setting up a profile page. They are then able to use the social media service built into the platform free of charge. Should they decide to subscribe to any of the services – music, movies, games, they receive up to 20% cash back for all purchases made that month by the individual and anyone who joined the platform through that individual's invitation, directly or indirectly.

Essentially, Monytize is allocating money it would have used for advertising and redirecting it to users for referring new members to the platform. We believe this approach will allow us to capture a material portion of the funds consumers currently spend on other entertainment subscription services.

MONYTIZE TECH

Monytize is built on next generation technology architected to insure a highly scalable, highly secure user experience. The technology layer is blockchain-based, crypto-enabled, and allows the company to serve as a real time global transaction platform. Users have real-time access to the balance in their wallets from their purchases and those purchases made by anyone in their network whether they invited them directly or not.

The platform is architected to multiple support withdrawal options, including PayPal, cryptocurrency, direct deposit, a Monytize debit card or cash. Users may also choose to be paid in the currency of over 150 countries.

The company has developed a detailed roadmap for enhancements and new functionality that will enable the platform to disseminate and control NFTs, manage and distribute celebrity products, stream proprietary and mainstream content to Smart TVs, and to continue to enhance the customer experience.

THE **VALUE** WE BRING

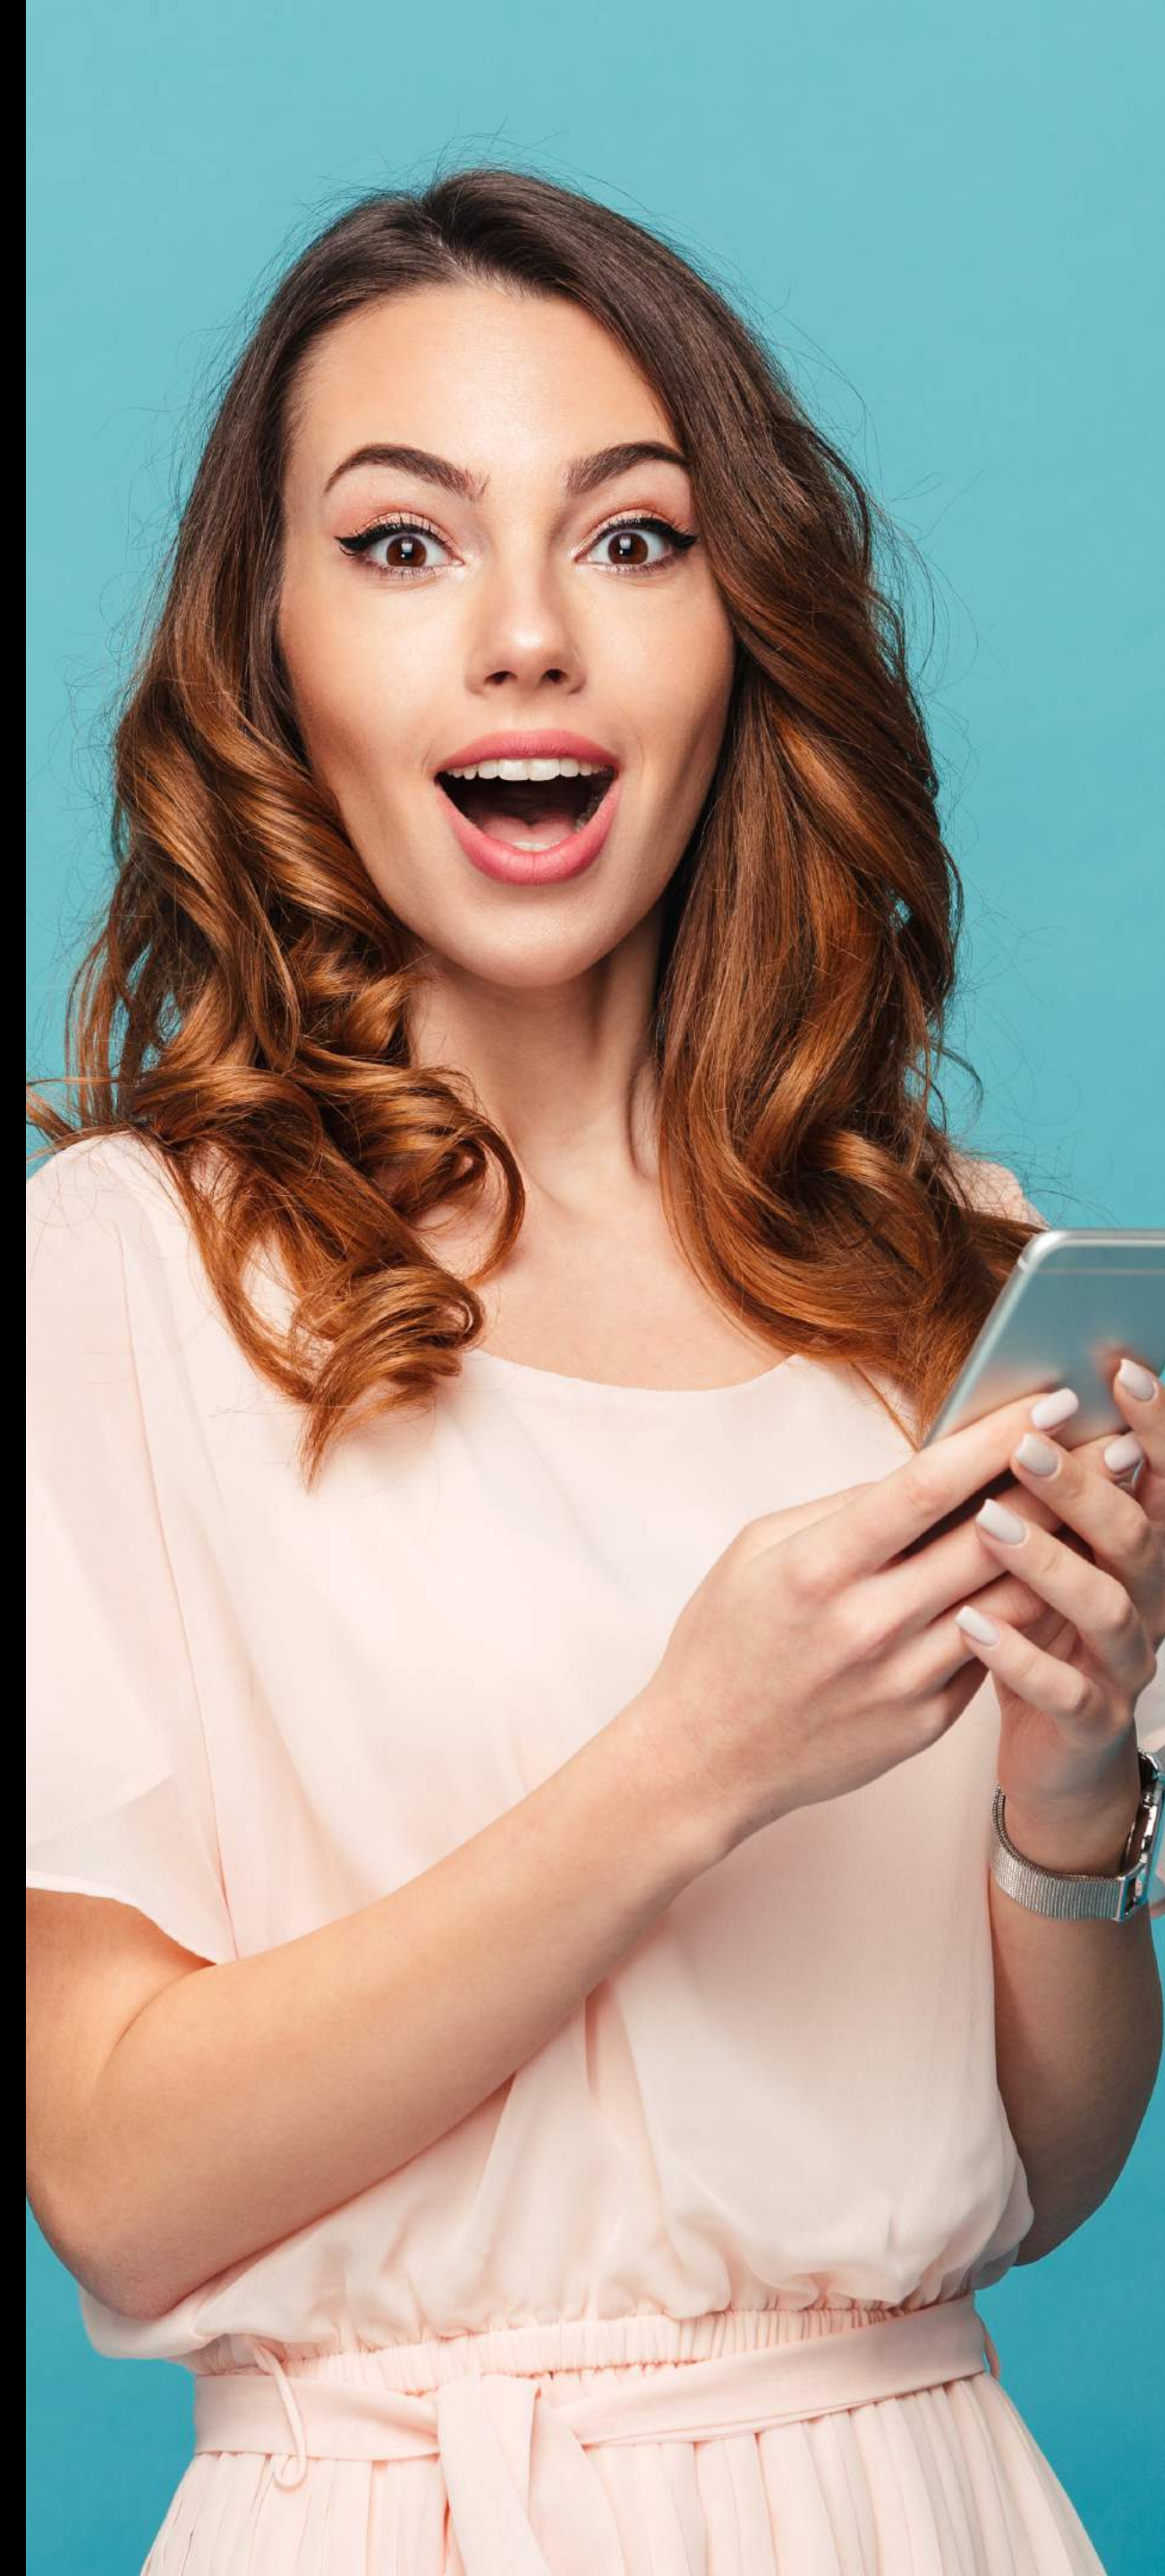

It starts with an invite.

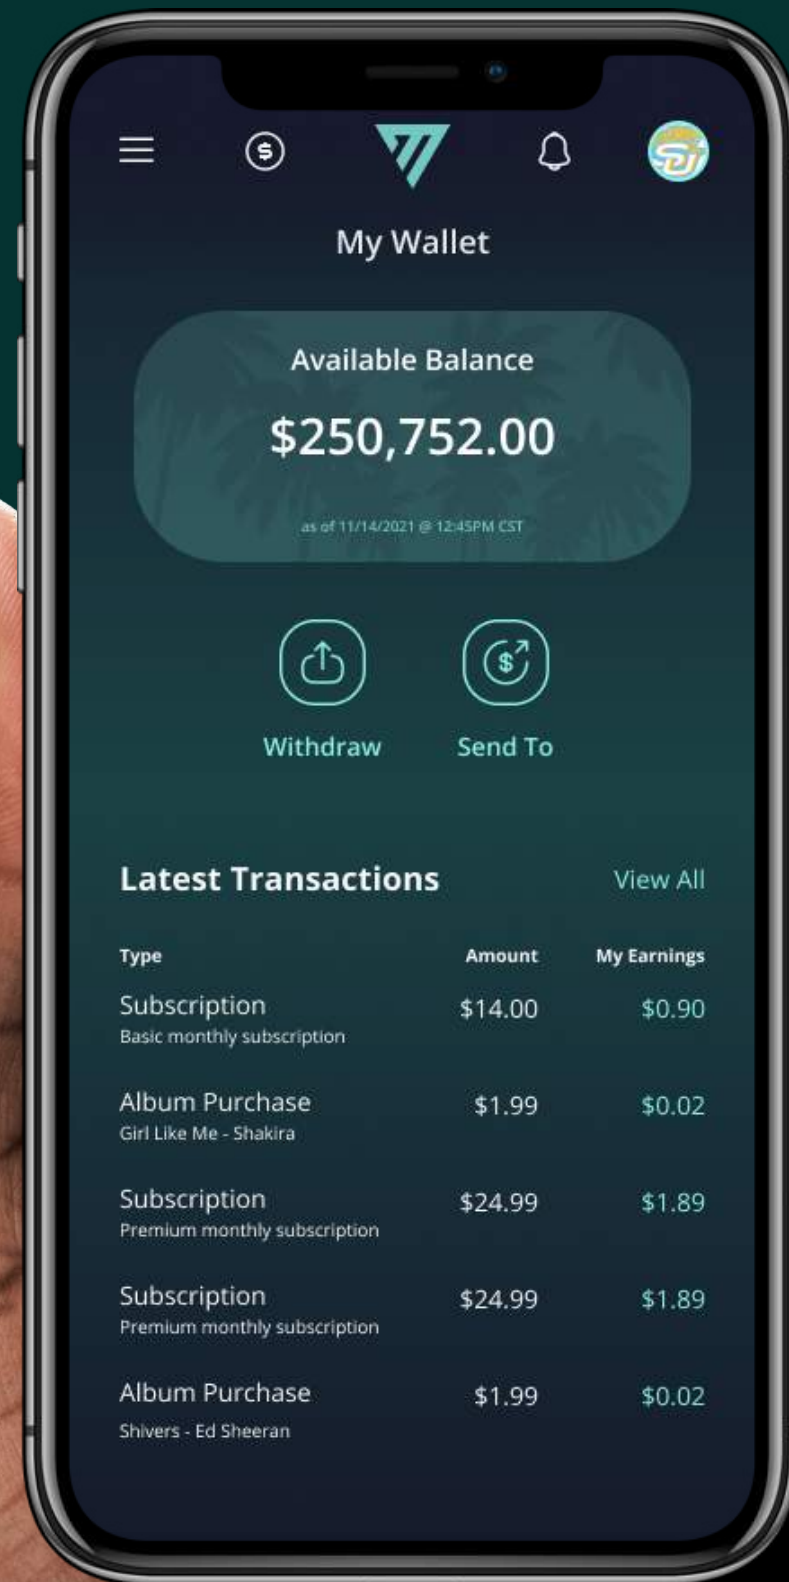

Once you receive an invite into the Monytize app, your endless potential to drive impact and revenue for your organization and community, has just begun.

You are now able to aid in the "monytizing" of funds, and redirect those funds to areas of need; internally and externally, for the good of your community.

HOW DO YOU
GET STARTED?

Today is the day to Monytize!

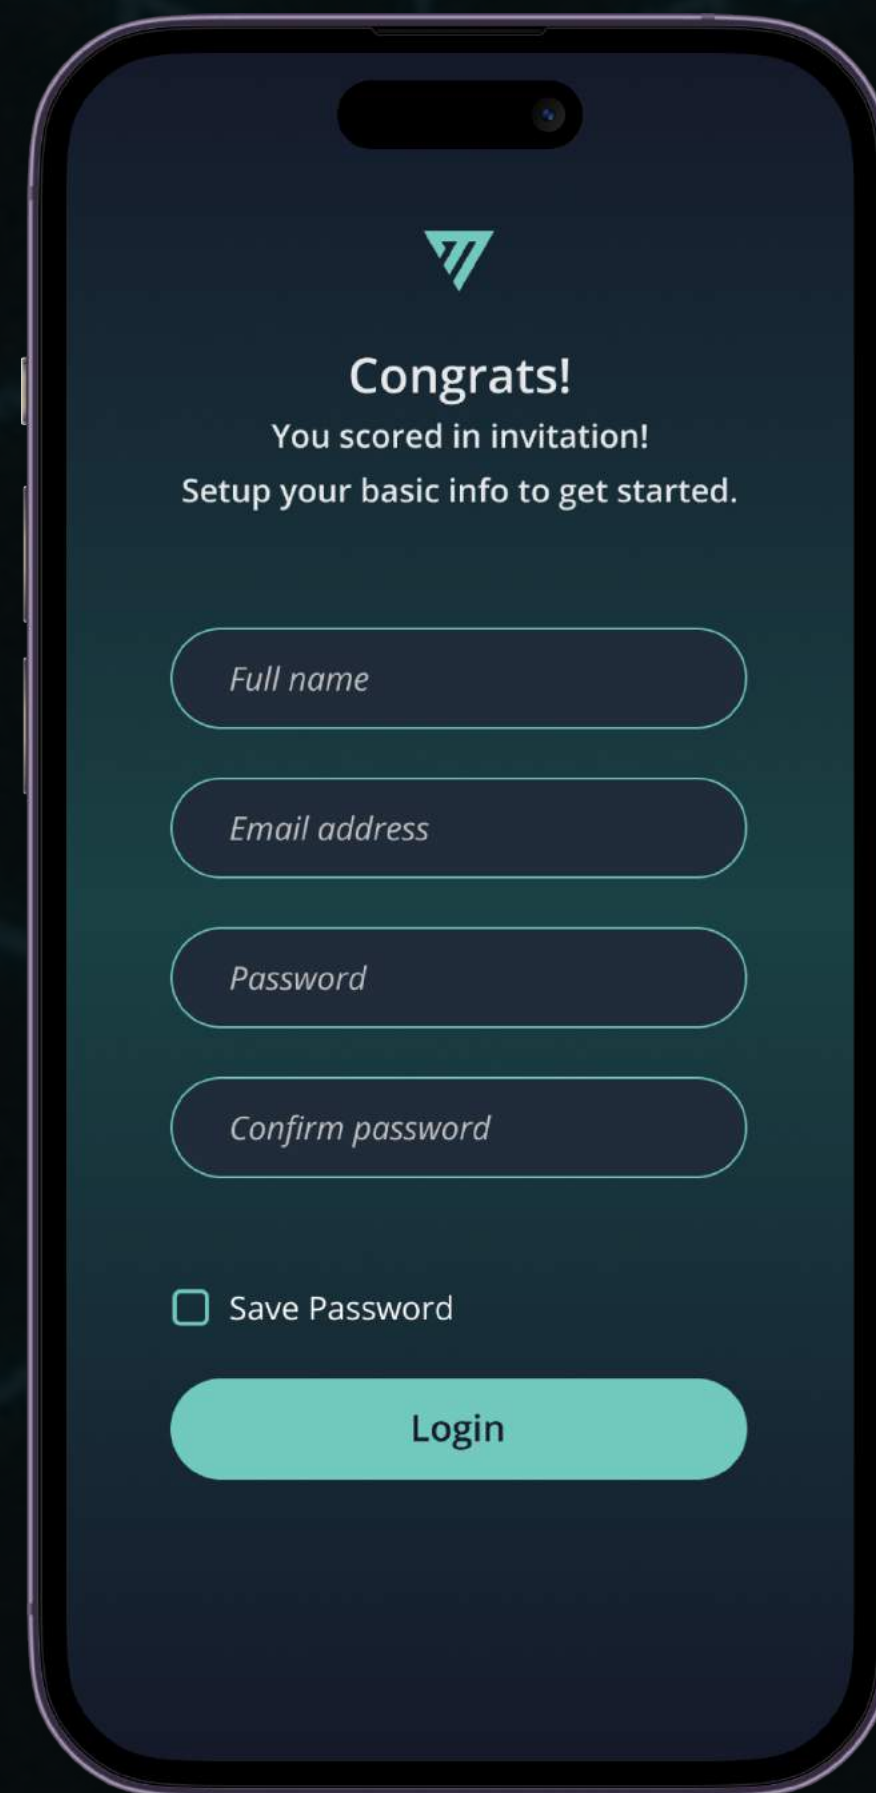

Download the app

Download the app today, and share your personal invite link with your friends, family, network, and community to start driving impact in a whole new way.

WHAT NEXT?

1. Receive an invite

Congrats!
You scored in invitation!
